A hand-selected figured Koa top produces a warm, full-bodied tone while it's lightweight Contour body pushes out plenty of volume. Specially designed abalone Celtic knot rosette and fingerboard inlays give the guitar distinctive aesthetic appeal, which is further accented by over 200 individual abalone sections that surround the top.

Powering the electric side is Ovation's OP Pro Studio preamp featuring exclusive "expressor"/drive controls that accentuate each individual note when playing finger style or single note passages.

Only 150 of these unique and collectable instruments will be produced in the early months of 2009.
