Preamplifier 9 1/2" high 22"  
wide 9 1/2" deep

## SEMI-PRO VOICE PA SYSTEM

(1) K-6003-P Preamplifier (1) K-6111-1 Amp Speaker Enclosure (1) K-7111-1 Speaker Enclosure (1) K-9610-0 Stand

A portable four piece combination that provides performers with quality vocal reproduction. Ovation circuitry makes possible increased volume and decreased feedback. The preamplifier has six independently controlled channels with reverb selective on each channel.

Other features: 8 matched 10" Ovation Standard Speakers; 100 watt RMS power amplifier; "Failsafe" circuit breaker system; Acoustical designed speaker enclosure; Heavy, durable Naugahyde covering; 1 button reverb foot switch.

Speaker Enclosures 50" high 18" wide 14" deep

Preamplifier 9½" high 22" wide 9½" deep

## SEMI-PRO ROCK GUITAR AMPLIFIER SYSTEM

(1) K-6001-P Preamplifier  
(1) K-6103-1 Speaker Enclosure

A popular amplifier hat offers maximum, even power at all levels. From piercing highs to deep tones. A two channel, 4 input Lead/Rhythm preamplifier contains separate controls for volume, treble and bass. For added effects the mixer includes fuzz tone, reverb, tremolo and top boost.

Other features: Electronic Strobe Tuner; 2 matched 12" Ovation Standard Speakers and 1 mid-range horn; 100 watt RMS power amplifier; "Failsafe" circuit breaker system; Acoustical designed speaker enclosure; 3 button reverb, fuzz, tremolo foot switch.

Speaker Enclosure 40" high 22" wide 14" deep

Preamplifier 9½" high 22" wide 9½" deep

## SEMI-PRO JAZZ GUITAR AMPLIFIER SYSTEM

(1) K-6001-P Preamplifier  
(1) K-6104-1 Speaker Enclosure

An all new sound is built into this system. Designed for the jazz guitarist, this amplifier contains 2 matched 12" Ovation Premium Speakers with 1 mid-range horn for extremely clean, crisp sound.

Other features: Lead/Rhythm preamplifier complete with tremolo, reverb, and fuzz tone controls; Electronic Strobe Tuner; 100 watt RMS power amplifier; Acoustical designed speaker enclosure; Heavy, durable Naugahyde covering; 3 button tremolo, reverb, fuzz foot switch.

Speaker Enclosure 40" high 22" wide 14" deep

Preamplifier 9½" high 22" wide 9½" deep

## SEMI-PRO BASS AMPLIFIER SYSTEM

(1) K-6002-P Preamplifier  
(1) K-6120-1 Speaker Enclosure

Versatile and portable, this high powered bass system utilizes 1 15" Ovation Extended Bass Speaker to obtain high volume with low notes.

Other features: Organ/Bass preamplifier complete with fuzz tone, reverb, top boost controls; Electronic Strobe Tuner; 100 watt RMS power amplifier; "Failsafe" circuit breaker system; Acoustical designed speaker enclosure; Heavy, durable Naugahyde covering; 2 button reverb, fuzz foot switch.

Speaker Enclosure 26" high 22" wide 14" deep

Preamplifier 9½" high 22" wide 9½" deep

## SEMI-PRO ORGAN AMPLIFIER

(1) K-6002-P Preamplifier  
(1) K-6107-1 Speaker Enclosure

An excellent Organ amplifier capable of producing wide tonal characteristics. The speaker enclosure houses 4 matched 12" Ovation Standard Speakers and 1 mid-range horn. A magnificent amplifier for the accomplished modern organist.

Other features: Organ/Bass preamplifier complete with fuzz tone, reverb, top boost controls; Electronic Strobe Tuner; 100 watt RMS power amplifier; "Failsafe" circuit breaker system; Acoustical designed speaker enclosure; Heavy, durable Naugahyde covering; 2 button reverb, fuzz foot switch.
